### UNITED STATES SUPREME COURT.

The City of New York and Her Public Parks A Judgment for S10.000 Against the City
A Judgment for Actionate Occasioned
by Non-repair of Streets. &c.

Washington, Feb. 13, 1867.
The Yayr of New York, Plaintiff in Ecror, v. William

P. Sheffield.—Mr. Justice Miller delivered the opinion of the court in this case, which has been reported sustaining the judgment for \$10,000 against the city. plaintiff, Shefheld, it will be remembered, was winter of 1857 crossed the street below the City Hall Park, and in doing so fell over a stump, injuring him so seriously that before his recovery was effected an expenditure of over \$3,000 was made in medical attendance, &c. The defence of the city was that the ground where the plaintiff was hirt was originally a portion of City Hall Park, and that it was thrown into the street without authority of law. The following synopsis of the opinion will exist in the points of law involved:—It was consended that the appropriation of this portion of the park for use as a public street was illegal, because not in accordance with the statute providing for the widening and improvement of streets. This statute was intended marely to secure to private land owners compensation for their property taken for public uses, and can have no application to the case of an appropriation of the Common Council of land owner by the city for purposes of streets. Nor is the argument that the Park is by contract and statute pledged for the rescumption of the city data of any avail. It will be time enough to consider this question when some creditor of the city rance it, the legal title and the present use owere in the city when the land was converted into a street, and the city authorities cannot now claim exemption for their negligence in the manner in which the conversion was made under the plea that their act was in viousition of their duty to public creditors. When the nuthorities have treaded ground as a portion of a public street, and taken charge of it as such, the same as of other streets, and the regularity of the ext, the same as of other streets, and taken thorities cannot now claim exemption be their negligence as presented in the obstacle likelif was substantially that the existence of an obstacle in the arther its sacche streets without notice of such obstacle; but in this case the question of notice did not arise claim. inter of 1857 crossed the street below the City Hall Park. in doing so fell over a stump, injuring him so seri

The report of the Committee on Appointments and Discipline, ad-vising appointment of Albert Stone, engineer to Engine Vising appointment of Albert Stone, engineer to Engine 21, and James Eyan private to same company and Felix O'ltourke to Hook and Ladder No. 12, was adopted comraissioner Engs offered a resolution, which was adopted, that in view of the extensive conflagration in Broadway last Tuesday, in which the Appleton Building, eccupied by S. B. Chittenden & Co., was destroyed, a special meeting of the Board be held on Friday alternoon next, at three P. M., for the purpose of making a thorough investigation into the origin and causes of the fire and the working of the department at the same. The Board then adjourned.

COILDREN'S TEA PARTY AT ST. BARNABAS CHAPEL.-The ladies of the Industrial School of the Women's Employment Society attached to St. Barnabas chapel, located in Mulberry street, of which the Rev. S. H. Hilliard is Mulberry street, of which the Rev. S. H. Hilliard is Rector, gave their semi-monthly tea party to the scholars at the charol of that institution, yesterday afternoon. The school's under the charge of Mirs. Ketchum and Mra. Terhune, Directresses of the Women's Employment So-ciety, and numbers some seventy children of all ages, and there is no doubt but much good will result from the efforts of the ladies to establish a permanent school in that neighborhood.

ther New Haples Bridge—It is stated on good authority that the new Harlem bridge will be regularly opened for traffic about the middle of May next. The roadway is now ready for the plauking, which is to be of the best Florida pine. Foot passingers have been already permitted to cross over the lower sidewalk on a temporary planking.

### FINANCIAL AND COMMERCIAL

WEDNESDAY, Feb. 13-6 P. M. The gold market opened at 13714 this morning, the impression having been that the passage of Mr. Eilou's bill for the reconstruction of Louisiana, in the House of Representatives, together with the introduction of the Loan Certificate bill by Mr. Sherman, in the Sensie, Loan Certificate bill by Mr. Sherman, in the Senate, would favor an upward movement. The advance was not, however, sustained, and before noen the prace touched 136%, although it subsequently railled to 137%. The closing quotation at four P. M. was 125% a %. There was a good borrowing demand for coin and leans were generally made flat. The undertone of the market continues firm, and a large amount of gold is held out of the street by importers and others who anticipate a higher range of the premium arising from the state of both commercial and political affairs. The private advices received from Washington after the closing of the room were construed as favorable to an advance, and transactions were reported to have been made accordingly.

and during the afternoon a bearish feeling prevailed, under which a rather sharp decline took place. The immediate cause was a bear attack on Eric, intended to affect the entire list, which the prevailing stagnation and the entire tamoness of the speculative feeling in-vited. There are no large buyers of stocks, and the vited. There are no large buyers of stocks, and the bulls lack both the money and the spirit necessary to engineer an opward movement. After every trifling rise or fall there is a trifling reaction, and the market romains without any decided feature. Meanwhile the expenses of the brokers are considerably in excess of their aggregate earnings, and the streat feels poor. Money is nevertheless abundant to the Stock Exchange at 6 per cent on railway collaterals and the governments, while first class commercial on governments, while first class commercial paper is discounted at seven per cent. On the 15th instant the Treasury will disburse the semi-annual interest on the first series of the seven-thirty loan. The amount of this loan outstanding it is impossible to ascertain from the official statements of the public debt; but originally would be \$10,050,000. The Loan Certificate bill, it is confidently expected, will pass, now that it has been amended by reducing the amount to eighty millions and the rate of interest to three per cent, and, further, re-quiring the banks to keep not less than two-fifths of their reserve in legal tender notes. The principle of the bill is however, wrong. It redeeps a time obligation and upon this it has to pay interest. The proper policy would be to issue new plain legal tenders in redemption of the collound notes as they mature, and thus save interest and trouble to the Treasury and simplify the machinery of both the banks and the Treasury.

occupying the attention of the Illinois Legislature. It is proposed not only to fix freight rate and fare limitaalready in operation. This has aroused strong opposi-tion in some quarters. It is argued that all the railways that Illinois needs are not yet built, and that if the existing lines would thus be converted into greater mo-nopolles than they are at present. The increased cost of building and operating rough is put forward as a gufficient reason for an advance in the scale of charges, and so important a source of individual and public wealth as ratiways furnish to the State cannot be unjustly dealt with with impunity.

The tendency of the tariffs on all the Illinon reads is at present downward, and it is probable that they will continue to decrease as the amount of their traffic increases. Brevet Lieutenant Colonel M. K. Hogan, Medical Director of the District of North Carolina, Freedmen's Hureau, has been in the city on a brief leave of absence. He returned to Raleigh last evening.

John Francis Maguire, Enq., member of the British Parliament for the city of Cork, Ireland, arrived in this city yesterday and is stopping at the Astor House. Mr. Maguire has been a member of the House of Commons for over twenty years, and is probably one of the most solid and sensible men representing an Irish constituency in that body. A man of close study and considerable literary sequirements, he has devoted himself rauch, both as a journaits and a statesman, to questions of practical perpose. His visit to this country is made with the view to publish a book on the condition of his countrymen in America without any reference to morely political question or the workings of our institutions, except in so far as they operate for the well being of the emigrants who have made this country their home. He has airendy travelled extensively through the Western and Southern States, and will no doubt be in a position to infuse considerable knowledge upor America, affairs into the British Parliament on his setura to England. Mr. Maguire has been for many years the proprise or and editor of the Cork Exemiser, a Journal remarkable for its conservatism and adherence to the substantial interests of the Irah people.
